COMBO

ComBO: Learning + Mobility

ERASMUS PLUS - KA1 - VET

Few numbers about US...

- ComBo - 7 years accreditation: almost 40 mobilities per year
- Supporting many different sending schools: almost 400 mobilities per year

We manage 400/450 mobilities per year (80% short term and 20% long term students)

What do we do?

- Call for application
- Selection of the students (inclusive criteria)
- Pre-departure training (cultural, logistic, linguistic, digital, meeting with partner)
- Bridge between the school and the hosting organisation
- Tutoring during the mobility
- Post-mobility evaluation/final reports

What is it about?

ComBo is a seven-year accreditation European mobility project promoted by IFOM and co-funded by the European Commission within the framework of the Erasmus+ programme, **Vocational Education and Training (VET)** - Individual Learning Mobility (KA1).

A European mobility experience for the enhancement and development of **professional skills**

"**Work-based learning**" methodology abroad, with work programmes designed together with the receiving partners to ensure training close to the demands of the *tourism sector*, focusing on *digitalisation*

Consortium

For the first year, the initiative foresees mobilities divided among the following schools of the consortium:

IIS Antonio Meucci

ITCS Rosa Luxemburg

IIS Elsa Morante

ITSET Arturo Martini

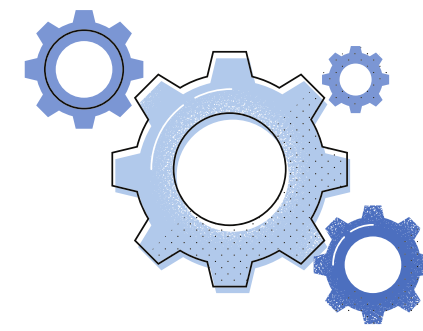

ISS "P. Gobetti"

COMBO

ComBO's Objectives

- Reinforce the alignment of students' outgoing **skills** with the present and future needs of the **tourism sector**, especially on **digitalisation**
- Strengthen the participants' **language skills**, as well as their **transversal, personal** and **professional** competences
- Involve participants with fewer opportunities and special needs in transnational work-based learning experiences to support **social inclusion**
- Strengthen **cooperation** and exchange with Italian and foreign companies and tourism organisations

Mobilities

For the first year, the initiative foresees:

- 24 short term mobilities in the destinations of Canary Islands and Greece
- 5 long term mobilities in the destinations of Canary Islands and Greece

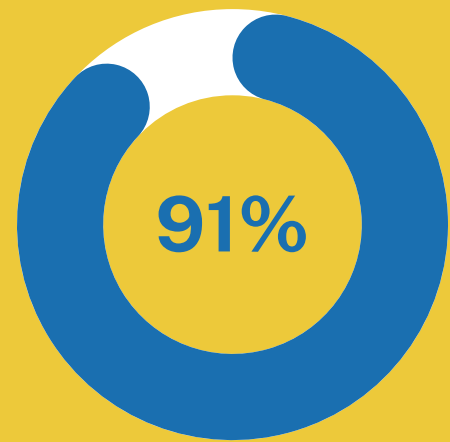

Main Partners

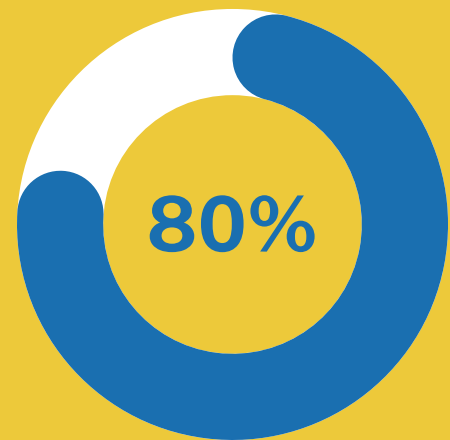

- ELA Tenerife - Spain
- Learning Seed Argos - Greece
- KANE Kalamata - Greece
- Internxperience Malaga - Spain
- Fundation Educational Trip Wroclaw - Poland
- ALFMED Perpignan - France
- ECE Cork - Ireland
- BragaMob Braga - Portugal

STUDENTS' FEEDBACK

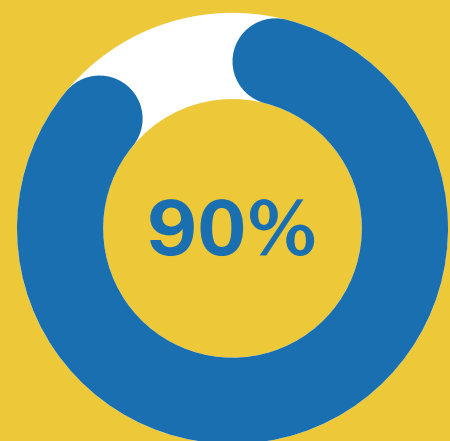

MOBILITIES

Percentage of participant satisfaction with the mobility period

TRAINING

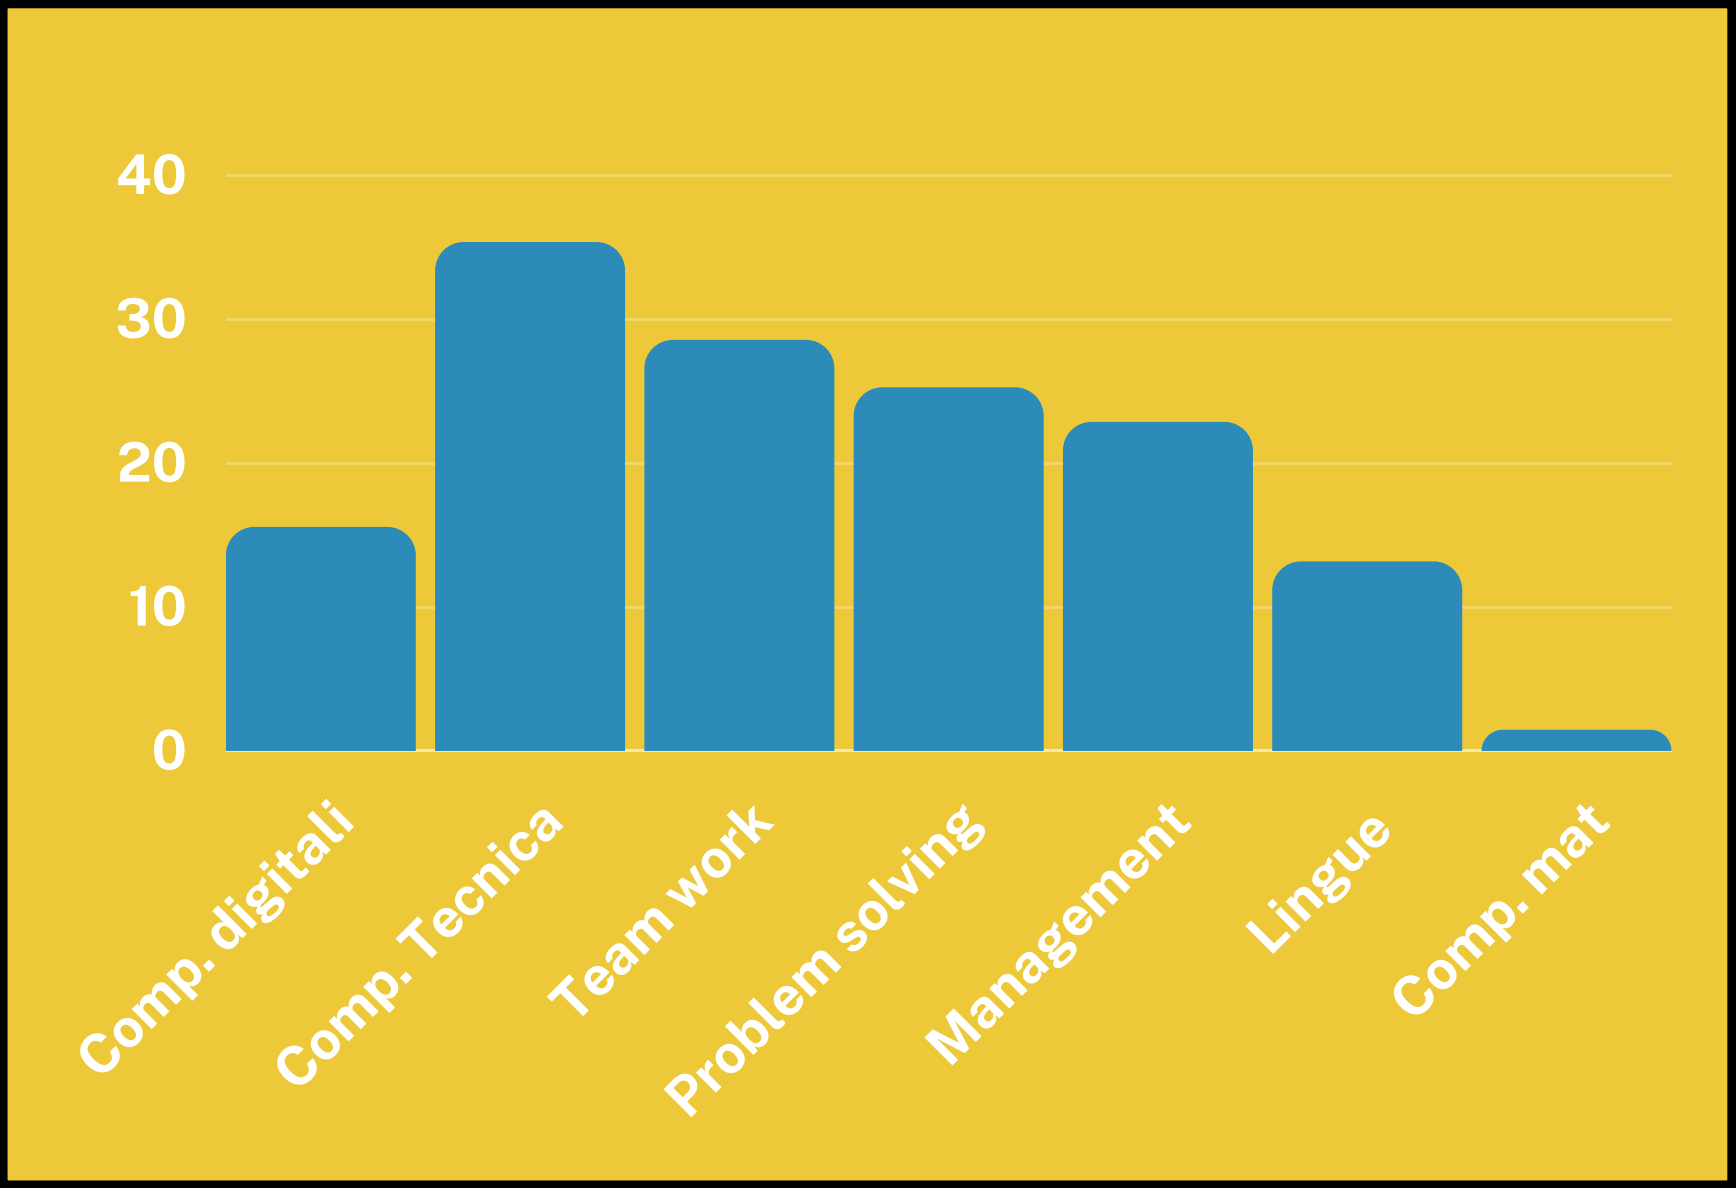

Percentage of satisfaction with the training received during the mobility

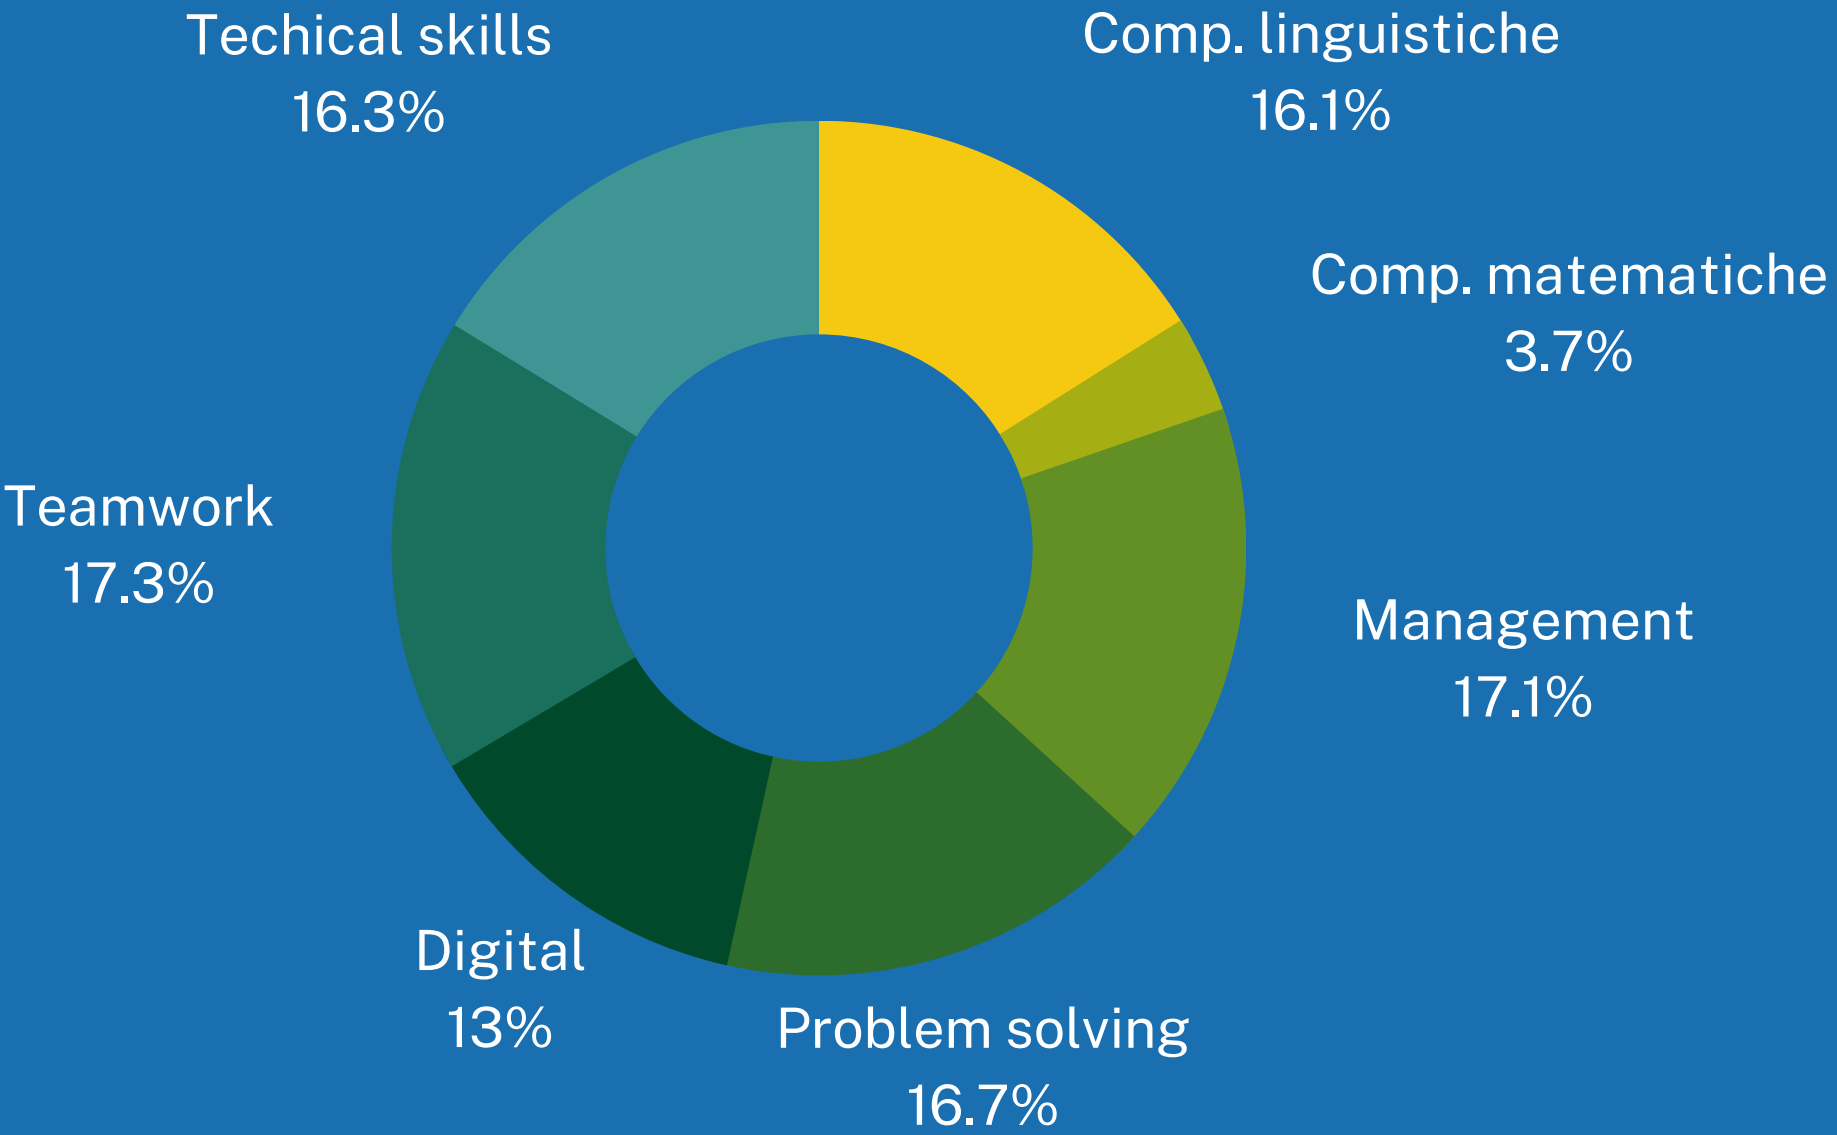

SUPPORT

Percentage of satisfaction with the support received from sending and support organizations

Main skills needed for enterprise development by skill type and size class - % of all enterprises

SKILLS ACQUIRED THROUGH THE MOBILITY

Testimonials

"My level of Spanish has increased exponentially, I make great progress every day and I'm travelling at a good speed towards full linguistic autonomy".

Francesco Lupino, Saragozza 2019

By getting out of your comfort zone, you open your eyes to many things, but especially to things you hadn't even thought about before. Obviously everyone chooses to live Erasmus in their own way, but when you return you will not be the same as before and, without even realising it, you will have changed many things about yourself. Erasmus is an experience that all young people should have in order to enrich themselves and grow culturally.

Aurora Ghislotti - Kalamata 2021

"Undoubtedly this has been one of the best experiences of my life, thanks to which I have learned a lot and I feel I have matured. It has taught me to throw myself into situations, to speak more calmly even with those I don't know and to be less afraid and I now feel much more confident in myself."

Sofia Ronca, Grecia 2021
