
WBL and dual education challenges

Group activity: What are your main challenges?

How can we get worst?

What can you do/not do, say/not say, think/not think to guarantee that you are managing WBL in the worst possible way?

Group activity: How can we get worst list

1. Not take into consideration the profile/needs of students/companies
2. **Let students/parents to choose the company**
3. **No selection criteria, just take whoever**
4. **No agreement/contract**
5. Make it mandatory without considering the feasibility
6. Let's ignore curricula, requirements, competences
7. **To have very poor equipment**
8. **No communication with companies/tutors/teachers/students**
9. **Disregard companies' reputation**
10. **No benefits/incentives for teachers**

Strategic problem solving model

- Based on the Strategic Problem Solving Model developed by Nardone
- We first focus on how to get worst to then improve and understand how and where we can improve by creating the how to get worst list that we shall use for at least 21 days

Best practice idea: pilot project in your city

- Get inspired by the DESI case study and contact 1-2 companies at local level to propose a similar project leveraging the visibility opportunity
